

META D WHITE PAPER: SUSTAINED GROWTH, FAIR DISTRIBUTION, AND VALUE APPRECIATION

MetaD Coin (MetaD) emerges as a groundbreaking cryptocurrency, inspired by the success of pioneering digital currencies and incorporating their proven features. This white paper outlines the vision, utility, a four-year roadmap, and a sustainable tokenomics model for MetaD Coin, emphasizing fair distribution, scarcity, and value appreciation. Additionally, it introduces a coin-burning mechanism and outlines the distribution strategy for MetaD, ensuring a balanced ecosystem.

INTRODUCTION –

MetaD Coin aspires to transcend traditional and digital economies. With a focus on retail, AI, Social Media, Gaming, and Media production, MetaD aims to establish itself as a secure, efficient, and universally accepted means of exchange.

UTILITY OF METAD COIN:

1. Retail Integration:

- MetaD empowers users to engage in secure transactions with partnering retailers, aligning with the principles of a peer-to-peer electronic cash system.

2. Social Media, Entertainment and E-commerce:

-MetaD will get introduced to social media app, ott and e-commerce platform where users can utilize the MetaD for earnings and purchasings of contents and goods

3. AI Technologies:

- MetaD supports the development of new-age AI technologies, embracing principles of borderless, accessible innovation.

4. Gaming Ecosystem:

- MetaD serves as an in-game currency, fostering a decentralized approach to gaming economies and becoming a universally recognized store of value.

5. Media Production:

- MetaD democratizes content creation by allowing crowdfunding for high-quality media projects, embodying the principles of a community-driven approach and sharing benefits to people.

THE ROADMAP

Year 1

1. MetaD launch, Airdrops and ICO.
2. Strategic partnerships with retailers.
3. Introduction of MetaD in select social media, OTT, Gaming and E-Com platforms.
4. Launching on different Exchanges

1. Expansion of retail partnerships.
2. Launch of MetaD Marketplace.
3. Integration with major gaming platforms.
4. Collaboration with established media production studios for MetaD-backed projects

Year 2

1. Implementation of smart contracts for enhanced security and transparency.
2. Introduction of MetaD debit card.
3. Integration with emerging AI technologies.
4. Global expansion and strategic partnerships.

Year 3

1. Blockchain development.
2. Research and development of AI softwares and technologies.

Year 4

TOKENOMICS

Tokenomics Model:

- Total Supply: 1000 million MetaD.
- Company Holdings: MetaD (30%).
- Public Distribution: MetaD (70%).

Coin-Burning Mechanism:

- Year 5: 200 million MetaD burned (20%).
- Year 10: 100 million MetaD burned (15%).
- Year 15: 70 million MetaD burned (7%).
- Year 20: 30 million MetaD burned (3%).

BENEFITS FOR HOLDERS

1. Fair Distribution:

With 70% of MetaD designated for public distribution, ensures a fair and decentralized ownership structure.

2. Scarcity and Value Appreciation:

The gradual reduction in total supply through halving and coin burning is designed to enhance scarcity, potentially leading to value appreciation for MetaD holders.

3. Sustainable Growth:

The company's commitment to holding only 30% of the total supply fosters trust and ensures a balanced ecosystem for sustained growth.

4. Ecosystem Alignment:

The burning mechanism aligns with holders' interests, as it aims to control inflation and contribute to the long-term value of MetaD.

MetaD Coin's tokenomics model, coupled with a fair distribution strategy and coin-burning mechanism, aims to create a sustainable and rewarding ecosystem for its community of holders.
